DANIEL TERAN

SUMMARY

A very kind, motivated, and hardworking individual with many skills within. Enjoys learning something new and trying to understand how things work. Am seeking to become a web/software developer with hopes of expanding my knowledge immensely and becoming a Full-Stack Developer.

SKILLS & ABILITIES

Written and developed several web pages and apps using HTML, CSS, and JavaScript/React/Angular as well as scripts in Python, Java, and C/C++. Familiar with RESTful architecture, code frameworks, authorization, runtime/memory, and eager to learn more. Developed good people skills from experience in previous jobs. Organized, clean, self-motivated, and hardworking. Proficient in MS Office, SQL, GitHub and CAD software. Have learned through school and jobs how to manage my time efficiently. Up to date with current technology.

EXPERIENCE

RESEARCH TECHNICIAN, UNIVERSITY OF ARIZONA LUNAR & PLANETARY LABORATORY

August 2016-present

Hired based on knowledge and background in engineering, computer science, and physics. Wrote code in Python to do our scientific research as well as to implement a GUI using Tkinter to connect to a motor controller. Designed space flight hardware for NASA and JPL as well as lab specific projects using CAD. Aligned and tested optical setups in and out of the rocket. Maintained weekly schedule online to organize team meetings as well as our FTP server.

STUDENT WORKER, UNIVERSITY OF ARIZONA FUEL MODERN EATERY

February 2015-November 2016

Primarily worked in kitchen cooking the food and getting them out on time. Worked the register helping customers. Assisted in closing the restaurant which consisted of cleaning and wiping down the kitchen, restocking, and counting the drawer.

EDUCATION

UNIVERSITY OF ARIZONA – TUCSON, AZ – BACHELOR OF GENERAL STUDIES IN SCIENCE, TECHNOLOGY, HEALTH, AND SOCIETY, 2012-2018

Studied Math, Physics, Computer Science, and Engineering.

THUNDERBIRD HIGH SCHOOL – PHOENIX, AZ – HIGH SCHOOL DIPLOMA, 2008-2012
